# 500 WASHINGTON NAVEL ORANGE TREES

FOUR FEET HIGH AND BUSHY

## SPECIAL PRICES

\$5.00 per 10; \$40.00 per 100, F. O. B., LOOMIS

# 3,000 Hardy Water Lilies

## ODORATA CAROLINIANA

A superb variety, and highly recommended for large ponds. A strong and rapid grower; leaves 12 to 14 inches across, green above, reddish green in young state, red beneath; flowers fragrant. With us the bloom is 8 to 10 inches diameter, of a delicate, rose flesh color; stamens yellow; stems 2 to 3 feet above water; spreads rapidly.

Price, 50c each; \$5.00 per 12.

ON RECEIPT OF A \$5.00 ORDER AND OVER we will put one of our fine **Carnation Basket Calendars** in the shipment as it is too large to send by mail. This calendar is the finest carnation calendar ever sent out to the trade, being printed in seven colors.

# California Carnation Co.,

LOOMIS, CALIF.

This Phenomenal Berry went \$1,400 per Acre Last Year.

## BURBANK'S "PHENOMENAL" RED RASPBERRY

### Trade List

**T**HIS IS MR. BURBANK'S LATEST BERRY TRIUMPH. He never wants anything to leave his hand until he has proved its merits. So this was not put upon the market until tested and sealed with approval by its great originator.

And from another season's experience with it we are frank to say that as the territory of its introduction and use is enlarged, it continually grows in favor. It has made for itself by its just merits, hosts of new friends within the past year. To see it in its perfection is to desire it.

It is the result of a cross between the "Improved California Dewberry" and the "Cuthbert Raspberry." It takes the color and flavor of the latter and size and shape more of the former. Mr. Burbank describes it as "larger than the largest berry ever before known; bright crimson raspberry color; productive as could be desired, and the most delicious of all berries for pies, canning, jelly or jams."

The berries grow in clusters of from five to ten, or more, and individual berries, under favorable conditions, have measured three inches one way by three and one-half to four the other. It's a surprise and delight to people when first seen, being so large and luscious. Mr. Burbank has recently said: "**It is the best berry in the world,**" and the prophecy of others is that "It is the coming berry of the future." The demand for plants last year far exceeded the supply, and the demand now is greatly on the increase. This speaks for itself as to the quality and merits of the berry. It being easily grown and firm, it is a profitable berry for the fruit grower or small rancher to produce for shipping to home or distant markets. Also, it's no mistake if one has a half dozen plants in the garden or back yard of a town or city residence, for, by their productiveness they prove a delight for the table and yield great returns for the amount invested. We can supply the plants in dozen or thousand lots, as suits the buyer. **WARRANTED HARDY ANYWHERE.**

The vines grow as trailers.

In field cultivation there are two methods: One is to set the plants six or seven inches deep, six to eight feet apart in rows eight feet apart. Set in the spring is best, and let them grow until the next spring, but keep the ground well cultivated. Then set stakes twelve to sixteen feet apart and three and one-half or four feet high. Stretch a wire from top of stakes and staple down. Then gather up the vines and loosely twine or tie to the wire and continue cultivation.

The other method is similar; only the plants are set 12 to 16 feet apart, in rows only 4 feet apart.

The berries ripen here the last of May and continue until the first of July.

After the fruit is gathered, go through and cut out all the old vines and canes, as the new growth at the foot of the hill is the one to put upon the wire the following spring to bear fruit. Ready December 1.

**PRICES: \$1.00 per 12; \$6.00 per 100; \$50.00 per 1000. 6 at 12 rates; 25 at 100 rates; 250 at 1000 rates.** Express prepaid by us. Address, **CALIFORNIA CARNATION CO., Loomis, California.**
